INDEPENDENT SCHOOL DISTRICT 152 MOORHEAD, MINNESOTA

MISSION STATEMENT

The mission of Moorhead Area Public Schools is to develop the maximum potential of every learner to thrive in a changing world.

THE SCHOOL ENTITY

Moorhead Area Public Schools (MAPS) encompasses 206 square miles in Clay County, Minnesota and includes all or part of 11 townships. The district is 34 miles long, ranges from 3½ to 9½ miles wide and is bordered on the west by the Red River. The communities of Moorhead, Georgetown, Kragnes, Sabin, and Rustad are all part of the district. The district currently employs over 800 people in full and part-time positions. The district operates a maintenance garage, an education center, three elementary schools, a middle school, a high school and an area learning center.

OBJECTIVES OF THE ANNUAL OPERATING PLAN

- 1. To approve the 2012-2013 preliminary budget.
- 2. To project revenue and expenditures for a two-year period beyond the current budget.
- 3. To present historical information.
- 4. To have the above information organized in such a manner that it may be used as a tool in the district's long-range planning process.

I. GENERAL FUND

INTRODUCTION

The district is anticipating 2012-2013 General Fund revenues of \$56,723,944. This reflects an increase of \$1,576,294 compared to 2011-2012. This increase is due primarily to a new categorical state aid (Literacy Aid) that was added for 2012-2013 and to a \$50 per pupil increase on the basic formula allowance. Expenses for the General Fund are anticipated to be \$55,142,316. This reflects an increase of \$1,583,019 compared to projected expenditures from 2011-2012. The primary reasons for this increase include the continued addressing of the priorities established during the 2010 referendum campaign, capital expenditures for technology upgrades, and the addition of assistant principals at the elementary level. Additionally, a total of three school buses will be purchased in 2012-2013. Two of the buses will allow the retiring of two of the district's oldest buses (model year 1993 and 1995) and the third is needed in order to increase by one the number of district-operated regular routes. The district last purchased a bus in 2007.

Projected changes to revenues and expenditures are made, when known, as close to actual amounts as possible; an increase in state or federal revenue is generally not assumed. Assumed increases to expenditures range from approximately 2% for salaries to typically 8-10% for health insurance premiums. Energy costs are generally assumed to increase at a 5-7% annual rate. Other expenses are assumed to increase using the Consumer Price Index (CPI), which is typically in the range of 2-3% annually.

The net result of the recommended General Fund budget is a combined restricted and unassigned fund balance increase of \$1,581,629 for 2012-2013. The June 30, 2012 restricted and unassigned General Fund balance is projected to be \$9,923,863, or 18.53% of expenditures. Budget assumptions will be monitored to verify accuracy as new information becomes available. A revised budget will be presented to the board in approximately January 2013.

On November 2, 2010, school district residents approved an operating levy request in the amount of \$850 per student, which will generate approximately \$5.2 million in revenue for seven years; 2012-2013 is the second of seven years in which the revenue will be received. The total number of votes cast was 12,995 of which 6,950 were "yes" (53.5%) and 6,045 were "no" (46.5%). The passage of the operating levy came one year after the first attempt failed on a vote of 4,078 (49.3%) in favor and 4,195 (50.7%) against the proposal, a difference of 117 votes out of 8,273 votes cast.

This version of the Annual Operating Plan (AOP) continues to reflect the changes that were made to the district's fund balance policy in 2011. The purpose of the policy revision was to create fund balance classifications that allow for more useful fund balance reporting and for compliance with the reporting guidelines specified in Statement No. 54 of the Governmental Accounting Standards Board (GASB).

Operating Capital15-18
The formula for calculating operating capital revenue is \$73 plus \$100 multiplied by the facilities age index (1.2745 for 2012-13) multiplied by the adjusted marginal cost pupil units. In addition, districts that operate year round programs such as the RRALC are entitled to \$30 for each pupil unit attending a year round program. The aid/levy proportion is the same percentage as the general education formula allowance funding.
Lease Levy
The district is authorized under MN Statute 126C.40 to levy for the cost of leasing space for instructional purposes or for school storage. The district submits an annual application to the Minnesota Department of Education (MDE) for approval. The total levy for a year must not exceed \$150 times the resident pupil units for the fiscal year to which the levy is attributed. New for 2012-2013, the district entered into a lease agreement with LCSC for its Adult Basic Education (ABE) program.

Property/Liability Insurance 60
OPERATING CAPITAL EXPENDITURES
Capital expenditures consist of expenditures for acquisition, additions, or improvement of sites, buildings, and equipment. An item qualifies as equipment if all the following criteria are met: • It retains its original shape and appearance with use. It has a normal useful life of at least three years. • It is nonexpendable. That is, if the article is damaged or some of its parts are lost or worn out, it is usually more feasible to repair it rather than replace it with an entirely new unit. • It represents an investment of money (usually a unit cost range of greater than \$500), which makes it feasible and advisable to capitalize the item. • It does not lose its identity through incorporation into a different or more complex unit or substance. Under a property control system each item or group of like items would be separately inventoried and controlled.

II. FOOD SERVICE

INTRODUCTION

This fund must be established in a district that maintains a food service program for pupils. Food service includes those activities which have as their purpose the preparation and service of milk, meals, and snacks in connection with school and community service activities.

Revenues and expenditures for Food Service activities are recorded in this fund. Eligible expenditures include application processing, meal accountability, food preparation, meal service, and kitchen custodial service.

If revenues exceed expenditures, the resultant positive fund balance may not be transferred to the General Fund. If a deficit occurs, permanent transfers should be made from the General Fund to the Food Service Fund as of the end of the fiscal year.

Basic Assumptions

Prices used to develop revenue projections were as follows:

Category	2011-12 Prices	2012-13 Prices
Milk	.40	.40
Breakfast	1.00	1.00
Elem Lunch	1.75	1.90
Middle S/HS Lunch	2.00	2.05
Adult Lunch	3.25	3.25

Note: Price increases from 2011-12 to 2012-13 are due to a Federal requirement for a 2012-13 weighted average price of \$1.95.

Reimbursements

The per meal reimbursement from the state (lunch and breakfast) will remain neutral.

The per meal reimbursement for commodities will increase by .0275.

The per meal federal reimbursement (cash) for paid meals will increase by .06

The per meal federal reimbursement (cash) for free and reduced meals will increase yearly by .03 per breakfast, .05 per lunch, and .02 for snacks.

2012-13 Reimbursements (2011-12 figures, will be adjusted when figures are released in July)

State Reimbursement:

- \$.12 All lunch
- \$.55 Paid breakfast
- \$.30 Reduced breakfast

Commodities Reimbursement (Food Distribution Program):

\$.2225 Each meal (lunch)

Federal Reimbursement:

- \$.26 Paid lunch
- \$2.37 Reduced lunch
- \$2.77 Free lunch
- \$.27 Paid breakfast
- \$1.21 Reduced breakfast
- \$1.51 Free breakfast
- \$.07 Paid Snack
- \$.38 Reduced Snack
- \$.76 Free Snack

K-Milk Reimbursement:

\$.20 Milk - State

IV. COMMUNITY SERVICE

INTRODUCTION

The district census is currently at 42,939. The Early Childhood census is an average based on the number of students entering kindergarten in the previous five years. The formulas for General Community Education decreased in 04-05, as did ECFE and School Readiness. Some of the money was restored in 06-07. Efforts are made to increase revenue from donations, tuition, sponsorships, fees, and grants.

Note 1: Fund balance limits exist for General Community Education (including Adult Basic Education), Early Childhood Education, and School Readiness. Statutes require that the adjusted three-year average fund balance not exceed 25% of the prior year's program revenue before any adjustments for excess fund balance. Statutes define program revenue to include not only the Education levy, state aid entitlement--and, for ECFE and Community authority--but also any fees, grants and other program revenue. Projected limits for fiscal year 2012 are as follows: Community Education--\$168,300 ECFE--\$68,200; and SR--\$21,200. These figures are subject to change once audited data are available.

Note 2: Chapter 239 of the K-12 Education Omnibus Bill repeals Community Education, ECFE, and School Readiness reserve account limits and associated aid and levy penalties for FY 2014 and later.

VII. DEBT SERVICE FUND

INTRODUCTION

The Debt Service Fund is used to show revenues and expenditures for a school district's outstanding bonded indebtedness, whether for building construction or operating capital, and whether for initial or refunding bonds.

When a bond issue is sold, the school board must levy a direct general tax upon the property of the district for the payment of principal and interest on such bonds as due. The revenue from such tax must be separately accounted for in a Debt Service Fund (M.S. 475.61).

When an excess is accumulated in a Debt Service Fund due to interest earnings, lower than anticipated tax delinquency, or excess building funds, the levy for debt redemption may be reduced in whole or in a part as dictated by fund balances and debt retirement requirements. Where there are accumulations in the fund as the process of debt repayment nears an end, the accumulations should be used to reduce debt levies. Where there is any balance left in the Debt Service Fund after all obligations have been discharged, such balance shall be permanently transferred to the General Fund, with an equal levy reduction (M.S. 475.61).

There can be no borrowing from the Debt Service Fund. Any cash balance or investment in a Debt Service Fund is held in trust for the bondholders, and must not be used to support cash deficits in other funds (M.S. 123B.78, Subd. 4).

Due to the successful passage of a \$64 million bond referendum on March 12, 2002, the debt service fund has had a substantial increase.
