# Moorhead Area Public Schools <br> School Profiles 

## 2000-01 through 2004-05

Final

Prepared by the Office of Teaching \& Learning October 20, 2005

Mission: To develop the maximum potential of every learner to thrive in a changing world.

## Moorhead Area Public Schools <br> District Demographic <br> Data

2000-01 through 2004-05

# Moorhead Area Public Schools Demographic Definitions 

## 1. Attendance Rate

The number represents the proportion of days that students were in attendance throughout the year. The formula for attendance rate is the Average Daily Attendance (ADA) divided by the Average Daily Membership (ADM).

## 2. Average Daily Attendance (ADA)

The Average Daily Attendance (ADA) is the average number of student attendance over the year.

## 3. Average Daily Membership (ADM)

The ADM is the average number of students enrolled over the course of the year. Average Daily Membership (ADM) is calculated based on the year-end data reported by the school district through the Minnesota Automated Reporting Student System (MARSS).

## 4. English Language Learners (ELL)

The data reflects the number of children who are English Language Learners (ELL) or who are Limited English Proficient (LEP), including immigrant children and youth. The program is also known as English as a Second Language (ESL).

## 5. Enrollment as of October 1

The number reflects the actual count of students enrolled on October 1 of the school year.

## 6. Ethnicity

The number of students and percentage of students listed by federal ethnic group categories as of October 1.

## 7. Free and Reduced Lunch Program (FRP)

The data includes the number of students who are receiving free and reduced lunch. The proportion of students approved for free and reduced lunch will be reflected in the number.

## 8. Home Language

The number is reported as the language primarily used at home. Data will include the number of students and the home language.

## 9. Home Schooled Students

The number reflects students that have completed the home schooled forms on file in the Office of Teaching and Learning over the course of the school year. This number includes shared time pupils in the district.

## 10. Migrant Students

The number of students who have moved to a different school district "within the last three years because of their parent's temporary or seasonal work in agriculture or fishing". (US Dept. of Ed., 1999) The information is collected through MARSS.

## 11. Mobility

The number is given as it relates to those students who transferred from the buildings during the school year and number of students who entered the buildings during the school year. This data includes transfers within the district, those within the state and transfers from another state. The mobility will not reflect changes occurring from one school year to the next year based on natural progression from one building to the next. The information if collected through MARSS.

## 12. Open Enrolled Students

The figure reflects the number of students choosing to open enroll to Moorhead and to other districts. Minnesota Statute 124D. 03 allows all Minnesota's public school students the opportunity to apply to attend school outside of the school district where they live. Families generally provide their own school transportation. No tuition is charged. The information if collected through MARSS.

## 13. Private School Enrollment

The number of Moorhead Area Public School students that are enrolled in private schools in the Fargo-Moorhead Area. The information is collected in the Office of Teaching and Learning.

## 14. Spanish Immersion Program Enrollment

The number of students enrolled in the Spanish Immersion Program as of October 1. The information is collected in the Office of Teaching and Learning.

## 15. Special Education Status

The number of students in the district receiving special services listed by primary disability as of December 1. The information is collected in the Learner Support Services Office.

## 16. Students Transported

The transportation office provides the information on the percentage of students transported in Moorhead Area Public Schools. The number of students transported is divided by the total of K12 students in the district.

## Moorhead District Achievement Definitions

## 1. Minnesota Comprehensive Assessment (MCA)

Minnesota schools give the MCAs every year to measure student performance on the state standards. These standards outline what students should know and do in a particular grade. The MCAs measure academic knowledge in the skills of language arts, mathematics and writing.

The MCAs are used to show how well students have learned the concepts and skills in a given grade.

- The test provides information on student reading, math, or writing skills.
- The test provides a comparison to other students in the state.

Schools use the information from the MCAs to improve teaching and learning. Teachers and principals look for the areas where students do well, then reinforce the ways those skills are taught. They also look for areas that need improvement, then alter the ways they teach these areas or they increase the time they give to them.

In 2004-05 grades 3, 5, 7, 10 and 11 participated in the MCA tests in the areas of reading, math and writing. All public school students in grades 3-8 must take the MCA tests in 2005.

The test performance is divided into five areas:

## Proficient Academic Performance

Level 5: Advanced
Level 4: Above Grade Level
Level 3: At Grade Level
Not Proficient Academic Performance
Level 2: Slightly Below Grade Level
Level 1: Significantly Below Grade Level

## 2. Measures of Academic Progress (MAP)

The MAP assessment is a computerized, adaptive test that measures student achievement. Moorhead Area Public Schools use state-aligned MAP tests in reading and mathematics.

MAP tests provide results that can be used to:

- Identify the skills and concepts individual students have learned
- Diagnose instructional needs
- Monitor academic growth over time
- Make data-driven decisions at the classroom, school, and district levels
- Place new students in appropriate instructional programs

## RIT Scale

The scale used in the MAP assessment is divided into equal parts, like centimeters on a ruler. These parts are called RIT, which is short for Rasch Unit (after the test theorys founder, Danish Statistician Georg Rasch).

Because the tests are adaptive and the test items displayed are based on student performance, not age or grade, a score means the same thing. For example, a third grader who received a score of 210 and a fourth grader who received a score of 210 are learning at the same level. This allows growth to be measured.

The RIT scale is infinite, but most student scores fall between the values of 140 and 300. Like meters or pounds, the scale is equal-interval, meaning that the distance between 170 and 182 is the same as the distance between 240 and 252 . This allows educators to apply simple mathematical equations to the scores to determine information such as the mean and median scores in a class or grade.

Mean is the average.
Standard deviation is the amount of difference in scores.

Median is the middle score.

## MOORHEAD DISTRICT ACHIEVEMENT

## Teaching Staff

The number reflects the number of teaching staff at the end of the year. The information is also disaggregated by degrees and years experience. The data is provided by the Human Resources Office and the Staff Automated Report (STAR).

## Teacher Attendance

The information is gathered from the Substitute Employee Management System (SEMS) and disaggregated by the reporting categories for the system.

> Data

2004-2005

# Moorhead Elementary <br> Demographic Definitions 

## 1. Attendance Rate

The number represents the proportion of days that students were in attendance throughout the year. The formula for attendance rate is the Average Daily Attendance (ADA) divided by the Average Daily Membership (ADM).

## 2. Average Daily Attendance (ADA)

The Average Daily Attendance (ADA) is the average number of student attendance over the year.

## 3. Average Daily Membership (ADM)

The ADM is the average number of students enrolled over the course of the year. Average Daily Membership (ADM) is calculated based on the year-end data reported by the school district through the Minnesota Automated Reporting Student System (MARSS).

## 4. Detention

A teacher, principal, or designee may keep a student after school for correction of a violation, including tardiness to class. The information is collected from the principal in each school.

## 5. English Language Learners (ELL)

The data reflects the number of children who are English Language Learners (ELL) or who are Limited English Proficient (LEP), including immigrant children and youth. The program is also known as English as a Second Language (ESL).

## 6. Enrollment as of October 1

The number reflects the actual count of students enrolled on October 1 of the school year.

## 7. Ethnicity

The number of students and percentage of students listed by federal ethnic group categories as of October 1.

## 8. Free and Reduced Lunch Program (FRP)

The data includes the number of students who are receiving free and reduced lunch. The proportion of students approved for free and reduced lunch will be reflected in the number.

## 9. Home Language

The number is reported as the language primarily used at home. Data will include the number of students and the home language.

## 10. Mobility

The number is given as it relates to those students who transferred from the building during the school year and number of students who entered the building during the school year. This data includes transfers within the district, those within the state and transfers from another state. The mobility will not reflect changes occurring from one school year to the next year based on natural progression from one building to the next. The information is collected through MARSS.

## 11. Special Education Status

The number of students in the district receiving special services listed by primary disability as of December 1. The information is collected in the Learner Support Services Office.

## 12. Student Discipline Reports:

## Alcohol

The possession, use or being under the influence of any alcoholic product while on the school grounds or at schoolsponsored activities. The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Physical Assaults/Fighting

Characterized by a violent aggressive behavior by two or more individuals with the intent of inflicting physical harm upon one another and differentiated from "poking, pushing, shoving or scuffling." The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Other Drug Use

This refers to the possession, sale, distribution, or use of any controlled substances as defined in Minnesota Statute 152.02 while on the school grounds or at school-sponsored activities.

The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Tobacco

The use or possession of any type of tobacco product, chewing, holding a lighted tobacco product, or exhaling smoke from the mouth or nose on school property or at school-sponsored activities.
The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Vandalism (Willful Damage of School Property or of the Property of Others):

"Willful Damage" is the intentional cutting, defacing, or damage of any property, real or personal belonging to the school district, or to any individual within the school setting

## Weapons

A "weapon" means any object, device or instrument designed as a weapon or through its use is capable of threatening or producing bodily harm or which may be used to inflict self injury including, but not limited to, any firearm, whether loaded or unloaded; air guns; pellet guns; BB guns; all knives; blades; clubs; metal knuckles; numchucks; throwing stars; explosives; fireworks, mace and other propellants; stun guns; ammunition; poisons; chains; arrows; and objects that have been modified to serve as a weapon.

Weapons can also be any object, device or instrument having the appearance of a weapon and such objects, devices or instruments shall be treated as weapons including, but not limited to, weapons listed above which are broken or nonfunctional, look-alike guns; toy guns; and any object that is a facsimile of a real weapon.

Articles designed for other purposes (i.e. lasers or laser pointers, belts, combs, pencils, files, scissors, etc.) to inflict bodily harm and/or intimidate and such use will be treated as the possession and use of a weapon.

The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## 13. Suspensions

Out of school suspension is an action taken by the school administration prohibiting a pupil from attending school for a period of time no more than ten consecutive schools days.
The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## 14. Suspension-Bus

An action taken by the administration in a school to prohibit a student from riding the bus for a time period. The information is collected from the principal in each school.

## 15. Unexcused Absences

The numbers are collected from the student management reporting system, PowerSchool.
The following are examples of absences which will not be excused:

1) Truancy. An absence by a student that was not approved by the parent and/or the school district.
2) Any absence in which the student failed to comply with any reporting requirements of the school district's attendance procedures.
3) Work at home, including babysitting or running errands.
4) Work at a business, except under a school-sponsored work release program.
5) Absences resulting from cumulated unexcused tardies ( 3 tardies equal one unexcused absence).
6) Missing the bus, car trouble, oversleeping need for extra sleep, hair appointments, shopping, visiting friends, job interview, not returning to school following noon hour, leaving school ill without checking out with the health office, falsifying notes or explanations for absence, etc.

# Moorhead Elementary Achievement Definitions 

## 1. Retention in Grade

Retention of students is an option for students at any grade level who, after intensive interventions, are performing below expectations for the grade level. The decision to retain is made with teacher, parent and administrative recommendation. The information is provided by the principal.

## 2. Minnesota Comprehensive Assessment (MCA)

Minnesota schools give the MCAs every year to measure student performance on the state standards. These standards outline what students should know and do in a particular grade. The MCAs measure academic knowledge in the skills of language arts, mathematics and writing.

The MCAs are used to show how well students have learned the concepts and skills in a given grade.

- The test provides information on student reading, math, or writing skills.
- The test provides a comparison to other students in the state.

Schools use the information from the MCAs to improve teaching and learning. Teachers and principals look for the areas where students do well, then reinforce the ways those skills are taught. They also look for areas that need improvement, then alter the ways they teach these areas or they increase the time they give to them.

In 2004-05 grades 3, 5, 7, 10 and 11 participated in the MCA tests in the areas of reading, math and writing. All public school students in grades 3-8 must take the MCA tests in 2005.

## The test performance is divided into five areas:

## Proficient Academic Performance

Level 5: Advanced
Level 4: Above Grade Level
Level 3: At Grade Level
Not Proficient Academic Performance
Level 2: Slightly Below Grade Level
Level 1: Significantly Below Grade Level

## 3. Measures of Academic Progress (MAP)

The MAP assessment is a computerized, adaptive test that measures student achievement. Moorhead Area Public Schools use state-aligned MAP tests in reading and mathematics.

MAP tests provide results that can be used to:

- Identify the skills and concepts individual students have learned
- Diagnose instructional needs
- Monitor academic growth over time
- Make data-driven decisions at the classroom, school, and district levels
- Place new students in appropriate instructional programs

## RIT Scale

The scale used in the MAP assessment is divided into equal parts, like centimeters on a ruler. These parts are called RIT, which is short for Rasch Unit (after the test theory's founder, Danish Statistician Georg Rasch).

Because the tests are adaptive and the test items displayed are based on student performance, not age or grade, a score means the same thing. For example, a third grader who received a score of 210 and a fourth grader who received a score of 210 are learning at the same level. This allows growth to be measured.

The RIT scale is infinite, but most student scores fall between the values of 140 and 300. Like meters or pounds, the scale is equal-interval, meaning that the distance between 170 and 182 is the same as the distance between 240 and 252 . This allows educators to apply simple mathematical equations to the scores to determine information such as the mean and median scores in a class or grade.

Mean is the average.
Standard deviation is the amount of difference in scores.

Median is the middle score.

# Moorhead Area Public Schools Building Definitions 

## Teaching Staff

The number reflects the number of teaching staff at the end of the year. The information is disaggregated by degrees and years experience. The data is provided by the Human Resources Office and the Staff Automated Report (STAR).

## Heat and Electricity per square foot

The number reflects the cost of heating and electricity for the building. The cost per square foot of the building is obtained by dividing by the total cost by the total square footage. The information is provided from the maintenance office.

2000-01 through 2004-05

## Moorhead High School <br> Demographic Definitions

## 1. Attendance Rate

The number represents the proportion of days that students were in attendance throughout the year. The formula for attendance rate is the Average Daily Attendance (ADA) divided by the Average Daily Membership (ADM).

## 2. Average Daily Attendance (ADA)

The Average Daily Attendance (ADA) is the average number of student attendance over the year.

## 3. Average Daily Membership (ADM)

The ADM is the average number of students enrolled over the course of the year. Daily Membership (ADM) is calculated based on the year-end data reported by the school district through the Minnesota Automated Reporting Student System (MARSS).

## 4. Detention

A teacher, principal, or designee may keep a student after school for correction of a violation, including tardiness to class. The information is collected from the principal in each school.

## 5. Drop Out Rate

The number represents the cumulative dropouts for grades 7-12 reported by the district for the school year. Dropout rates can be calculated by totaling the reported dropouts for that year and dividing by the October 1 enrollment for grades 7-12. This information is a part of the MARSS information.

## 6. English Language Learners (ELL)

The data reflects the number of children who are English Language Learners (ELL) or who are Limited English Proficient (LEP), including immigrant children and youth. The program is also known as English as a Second Language (ESL).

## 7. Enrollment as of October 1

The number reflects the actual count of students enrolled on October 1 of the school year.

## 8. Ethnicity

The number of students and percentage of students listed by federal ethnic group categories as of October 1.

## 9. Extra Curricular Activities

The data provides information on males and female participates in high school activities. The data is gathered by the activities office.

## 10. Free and Reduced Lunch Program (FRP)

The data includes the number of students who are receiving free and reduced lunch. The proportion of students approved for free and reduced lunch will be reflected in the number.

## 11. Home Language

The number is reported as the language primarily used at home. Data will include the number of students and the home language.

## 12. Mobility

The number is given as it relates to those students who transferred from the building during the school year and number of students who entered the building during the school year. This data includes transfers within the district, those within the state and transfers from another state. The mobility will not reflect changes occurring from one school year to the next year based on natural progression from one building to the next. The information is collected through MARSS.

## 13. Special Education Status

The number of students in the district receiving special services listed by primary disability as of December 1. The number is collected in the Learner Support Services Office.

## 14. Student to Computer Ratio

The average number of students per computer in the school. The information is provided by the technology department.

## 15. Student Discipline Reports:

## Alcohol

The possession, use or being under the influence of any alcoholic product while on the school grounds or at schoolsponsored activities. The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Physical Assaults/Fighting

Characterized by a violent aggressive behavior by two or more individuals with the intent of inflicting physical harm upon one another and differentiated from "poking, pushing, shoving or scuffling." The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Other Drug Use

This refers to the possession, sale, distribution, or use of any controlled substances as defined in Minnesota Statute 152.02 while on the school grounds or at school-sponsored activities.

The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Tobacco

The use or possession of any type of tobacco product, chewing, holding a lighted tobacco product, or exhaling smoke from the mouth or nose on school property or at school-sponsored activities.
The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Vandalism (Willful Damage of School Property or of the Property of Others):

"Willful Damage" is the intentional cutting, defacing, or damage of any property, real or personal belonging to the school district, or to any individual within the school setting

## Weapons

A "weapon" means any object, device or instrument designed as a weapon or through its use is capable of threatening or producing bodily harm or which may be used to inflict self injury including, but not limited to, any firearm, whether loaded or unloaded; air guns; pellet guns; BB guns; all knives; blades; clubs; metal knuckles; numchucks; throwing stars; explosives; fireworks, mace and other propellants; stun guns; ammunition; poisons; chains; arrows; and objects that have been modified to serve as a weapon.

Weapons can also be any object, device or instrument having the appearance of a weapon and such objects, devices or instruments shall be treated as weapons including, but not limited to, weapons listed above which are broken or nonfunctional, look-alike guns; toy guns; and any object that is a facsimile of a real weapon.

Articles designed for other purposes (lasers or laser pointers, belts, combs, pencils, files, scissors, etc.) to inflict bodily harm and/or intimidate and such use will be treated as the possession and use of a weapon.

The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## 16. Suspensions

Out of school suspension is an action taken by the school administration prohibiting a pupil from attending school for a period of time no more than ten consecutive schools days.
The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## 17. Suspension-Bus

An action taken by the administration in a school to prohibit a student from riding the bus for a time period. The information is collected from the principal in each school.

## 18. Unexcused Absences

The numbers are collected from the student management reporting system, PowerSchool.
The following are examples of absences which will not be excused:

1) Truancy. An absence by a student that was not approved by the parent and/or the school district.
2) Any absence in which the student failed to comply with any reporting requirements of the school district's attendance procedures.
3) Work at home, including babysitting or running errands.
4) Work at a business, except under a school-sponsored work release program.
5) Absences resulting from cumulated unexcused tardies ( 3 tardies equal one unexcused absence).
6) Missing the bus, car trouble, oversleeping need for extra sleep, hair appointments, shopping, visiting friends, job interview, not returning to school following noon hour, leaving school ill without checking out with the health office, falsifying notes or explanations for absence, etc.

Data

2000-01 through 2004-05

# Moorhead High School Achievement Data Definitions 

## 1. ACT

The ACT is the predominate tests for college admission in the Midwest. The ACT is usually first taken in the spring of the junior year. The ACT is a two hour and 55 minutes multiple-choice tests. The total test is scored on a 0 (low) to 36 (high) basis, and its scores are reported in four categories: English, Reading, Mathematics, and Science Reasoning with a composite average of the four areas. The sub-scores are reported in a range between 1 and 18 .

## Core Curriculum

Students indicate the courses in which they are enrolled. The test is disaggregated by those students who take the core curriculum.

The core curriculum:
4 units English
3 units Mathematics
3 units Science
3 units Social Studies

## All Graduates

The scores are reported for all students taking the ACT test.
This information is a part of the report sent to the district by ACT.

## 2. Student Perception of High School Experience

Students complete the information as a part of the ACT test. This section provides information on the student rating of satisfaction or dissatisfaction with high school experiences at Moorhead High School.

## 3. Basic Skills Tests

The Basic Skills Tests ensure that all high school graduates have the basic reading, writing and math skills they need to live and work in today's society. Students in grades $9-12$ are required to pass these tests in order to graduate from high school.

## 4. Grade Distribution by Ethnicity

The report is generated from the student data management system (PowerSchool) at the end of the year. The data provides information regarding the grades of all students broken into ethnicity categories.

## 5. Post Secondary Options

Information is provided from the counseling department at Moorhead High School regarding the number of students, the classes taken, and grades received as a part of the Post Secondary Options program.

## 6. Advanced Placement Examinations (AP)

AP is a program of college-level courses and exams that gives high school students the opportunity to receive advanced placement and/or credit in college. Currently 60 percent of the nation's high schools participate in AP. Most of the nation's colleges and universities have an AP policy granting incoming students credit, placement, or both for qualifying AP exams.

Every examination receives an overall grade on a five-point scale:

## Examination Grade

Extremely well qualified 5
Well qualified 4
Qualified 3
Possibly qualified 2
No recommendation 1

## 7. Failure Rate

The data is generated from the student data management system (Power School) to provide information on the number of failures. The information is disaggregated into the number of semester courses failed.

## Teaching Staff

The number reflects the number of teaching staff at the end of the year. The information is disaggregated by degrees and years experience. The data is provided by the Human Resources Office and the Staff Automated Report (STAR).

## Heat and Electricity per square foot

The number reflects the cost of heating and electricity for the building. The cost per square foot of the building is obtained by dividing by the total cost by the total square footage. The information is provided from the maintenance office.

# and Red River Area 

Learning Center

> Demographic Data 2004-05

# Horizon Middle School and Red River Area Learning Center Demographic Definitions 

## 1. Attendance Rate

The number represents the proportion of days that students were in attendance throughout the year. The formula for attendance rate is the Average Daily Attendance (ADA) divided by the Average Daily Membership (ADM).
2. Average Daily Attendance (ADA)

The Average Daily Attendance (ADA) is the average number of student attendance over the year.

## 3. Average Daily Membership (ADM)

The ADM is the average number of students enrolled over the course of the year. Average Daily Membership (ADM) is calculated based on the year-end data reported by the school district through the Minnesota Automated Reporting Student System (MARSS).

## 4. Detention

A teacher, principal, or designee may keep a student after school for correction of a violation, including tardiness to class. The information is collected from the principal in each school.

## 5. English Language Learners (ELL)

The data reflects the number of children who are English Language Learners (ELL) or who are Limited English Proficient (LEP), including immigrant children and youth. The program is also known as English as a Second Language (ESL).

## 6. Enrollment as of October 1

The number reflects the actual count of students enrolled on October 1 of the school year.

## 7. Ethnicity

The number of students and percentage of students listed by federal ethnic group categories as of October 1.

## 8. Extra Curricular Activities

The data provides information on male and female participation in middle school activities. The data is gathered by the activities office.

## 9. Free and Reduced Lunch Program (FRP)

The data includes the number of students who are receiving free and reduced lunch. The proportion of students approved for free and reduced lunch will be reflected in the number.

## 10. Home Language

The number is reported as the language primarily used at home. Data will include the number of students and the home language.

## 11. Mobility

The number is given as it relates to those students who transferred from the building during the school year and number of students who entered the building during the school year. This data includes transfers within the district, those within the state and transfers from another state. The mobility will not reflect changes occurring from one school year to the next year based on natural progression from one building to the next. The information is collected through MARSS.

## 12. Special Education Status

The number of students in the district receiving special services listed by primary disability as of December 1 . The information is collected in the Learner Support Services Office.

## 13. Student to Computer Ratio

The average number of students per computer in the school. The information is provided by the technology department.

## 14. Student Discipline Reports:

## Alcohol

The possession, use or being under the influence of any alcoholic product while on the school grounds or at schoolsponsored activities. The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Physical Assaults/Fighting

Characterized by a violent aggressive behavior by two or more individuals with the intent of inflicting physical harm upon one another and differentiated from " poking, pushing, shoving or scuffling". The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Other Drug Use

This refers to the possession, sale, distribution, or use of any controlled substances as defined in Minnesota Statute 152.02 while on the school grounds or at school-sponsored activities.

The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Tobacco

The use or possession of any type of tobacco product, chewing, holding a lighted tobacco product, or exhaling smoke from the mouth or nose on school property or at school-sponsored activities.
The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## Vandalism (Willful Damage of School Property or of the Property of Others):

"Willful Damage" is the intentional cutting, defacing, or damage of any property, real or personal belonging to the school district, or to any individual within the school setting

## Weapons

A "weapon" means any object, device or instrument designed as a weapon or through its use is capable of threatening or producing bodily harm or which may be used to inflict self injury including, but not limited to, any firearm, whether loaded or unloaded; air guns; pellet guns; BB guns; all knives; blades; clubs; metal knuckles; numchucks; throwing stars; explosives; fireworks, mace and other propellants; stun guns; ammunition; poisons; chains; arrows; and objects that have been modified to serve as a weapon.

Weapons can also be any object, device or instrument having the appearance of a weapon and such objects, devices or instruments shall be treated as weapons including, but not limited to, weapons listed above which are broken or nonfunctional, look-alike guns; toy guns; and any object that is a facsimile of a real weapon.

Articles designed for other purposes (lasers or laser pointers, belts, combs, pencils, files, scissors, etc.) to inflict bodily harm and/or intimidate and such use will be treated as the possession and use of a weapon.

The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## 15. Suspensions

Out of school suspension is an action taken by the school administration prohibiting a pupil from attending school for a period of time no more than ten consecutive schools days.
The information is collected from the principal in each school and the Discipline Incident Reporting Summary from the Minnesota Department of Education.

## 16. Suspension-Bus

An action taken by the administration in a school to prohibit a student from riding the bus for a time period. The information is collected from the principal in each school.

## 17. Unexcused Absences

The numbers are collected from the student management reporting system, PowerSchool.

The following are examples of absences which will not be excused:

1) Truancy. An absence by a student that was not approved by the parent and/or the school district.
2) Any absence in which the student failed to comply with any reporting requirements of the school district's attendance procedures.
3) Work at home, including babysitting or running errands.
4) Work at a business, except under a school-sponsored work release program.
5) Absences resulting from cumulated unexcused tardies ( 3 tardies equal one unexcused absence).
6) Missing the bus, car trouble, oversleeping need for extra sleep, hair appointments, shopping, visiting friends, job interview, not returning to school following noon hour, leaving school ill without checking out with the health office, falsifying notes or explanations for absence, etc.

## Horizon Middle School and Red River Area Learning Center Achievement Data Definitions

## 1. Retention in Grade

Retention of students is an option for students at any grade level who, after intensive interventions, are performing below expectations for the grade level. The decision to retain is made with teacher, parent and administrative recommendation. The information is provided by the principal.

## 2. Grade Distribution by Ethnicity

The report is generated from the student data management system (PowerSchool) at the end of the year. The data provides information regarding the grades of all students broken into ethnicity categories.

## 3. Failure Rate

The data is generated from the student data management system (PowerSchool) to provide the number of failures. The information is disaggregated into the number of trimester courses failed.

# Moorhead Area Public Schools Building Definitions 

## Teaching Staff

The number reflects the number of teaching staff at the end of the year. The information is disaggregated by degrees and years experience. The data is provided by the Human Resources Office and the Staff Automated Report (STAR).

## Heat and Electricity per square foot

The number reflects the cost of heating and electricity for the building. The cost per square foot of the building is obtained by dividing by the total cost by the total square footage. The information is provided from the maintenance office.
